LANGUAGES AND TECHNOLOGIES

Languages and Frameworks: C#, JavaScript, HTML, CSS, React.js, JSON

Technologies: Node, MySQL, SQL, Git & GitHub, Postman, Web Services & REST API, VS Code, Azure

PROJECTS

PokerBot   **GitHub**

Right now I am currently working on the PokerBot project. An app which will open an online poker table and will make decisions based on the poker hand you have and position.

Capstone – Forum   **GitHub**

A forum application designed to register an account, create topics, and receive/engage from other users via comments, direct messages, and topic likes. As an administrator you are able to utilize 3rd party API Google Charts where you can analyze trends, user engagement and visualize forum activity data.
- Technologies used: C#, ASP.NET Web API, JavaScript, React.js, Google Charts, MySQL, JSON Web Token, Postman
- Features:
  - User account registration, login, and logout (Authentication & JWT)
  - User can create and view update account information
  - User can create topic as a new thread and comment in the forum main page
  - Users are able to message other users using their usernames
  - User is able edit or delete own topics while leaving a timestamp

Ecommerce   **GitHub**

A backend application designed to register an account, upload items for sale as a seller, purchase items as a buyer. The product delivery goes through phases: receiving an order from a customer, sending the order from seller to the buyer, buyer confirms the delivery of the item, closing the deal.
- Technologies used: C#, ASP.NET Web API, MySQL, Postman, JSON Web Token
- Features:
  - User account registration, login, and logout (Authentication using JWT)
  - User can post items for sale, send the item
  - User can buy items, receive the item and close the deal

EDUCATION

DevCodeCamp | Software Development Certificate   2023

- 12-week, project-based coding bootcamp focused on computer science concepts, building real-world full-stack applications, and deploying them to the cloud utilizing DevOps best practices
- Utilized C#, JavaScript HTML, CSS, MySQL, React.js, coding, debugging, testing, and building of full-stack and software applications
- Focused on programming best practices, object-oriented programming, functional programming, algorithms, time complexity, SOLID design principles, design patterns, SQL, application programming interfaces, web design and development, testing, agile, software development life cycle, and DevOps

Belarusian State Pedagogical University | Minsk, Belarus   2009-2013
Bachelor of Sports and Fitness Administration

American Council on Exercise | Online   2020
Certified Personal Trainer

WORK EXPERIENCE

Seminole Tribe Casino | Supervisor and Dealer   2020 – Present
Coconut Creek, FL

- Eliminate customer service issues by quickly resolving disputes and correcting problems.
- Regularly train newly hired personnel, supervise staff members, and evaluate employee performance.
- Accurately complete and submit required monetary transaction documentation.
- Utilize problem solving and active listening skills to effectively address guest complaints while promoting brand loyalty.
- Efficiently manage accurate money transfers and protected transactions with standardized procedures.
- Enforce strict security guidelines, report safety hazards, and remove disruptive guests from the facility.
- Meet staffing demands by reassigning staff members and reorganizing strategies as needed.
- Monitor gaming operations while enforcing house rules as well as tribal, state, and federal regulations.
- Surveille gambling activity on the floor to isolate cheaters by identifying card counting or marking cards.
- Ensure customer satisfaction by offering consistent gaming standards and closely controlling dealers.

Norwegian Cruise Line Holdings | Dealer   2014 – 2019
Miami, FL

- Promoted customer retention and satisfaction by greeting guests and encouraging fun gameplay environments.
- Maintained fast, smooth game pace by efficiently handling dice, chips, money, and cards.
- Dealt an appropriate number of cards to each player and verify placed bets before starting the game.
- Computed amounts of players' wins or losses by scanning and calculating tickets with earnings.
- Inspected cards and gaming equipment to verify proper functioning and good working order.
- Created an enjoyable atmosphere for players by engaging patrons in positive and entertaining conversation.
- Learned and followed company procedures to maintain consistency and standards.
- Adhered to all gaming regulations and procedures to maintain legal and ethical operation.
- Assisted players with placing bets, educating on game rules to increase understanding.
